PHOTOSHOP ADJECTIVES

In this project you will learn how to create and manipulate TEXT in Photoshop in a variety of ways to make it more expressive and eye-catching.

DIRECTIONS: Create FIVE different graphics in Photoshop that each show an ADJECTIVE (descriptive word) in an expressive visual form. You are required to use the word in the graphic with an appropriate font to fill the entire document. Use paint tools, filters, effects, different layers, layer styles, colors, and other features that you have learned to alter the text and make it EXPRESS what that word means visually.

•Dizzy	•Dull	• Fat	•Frail	•Friendly	•Funny	• Creepy
